

# Virginia Chapter

## ADOPT NEW CONSTITUTION AND BY-LAWS

A meeting of the Virginia Chapter was held at the Hotel Richmond, Richmond, Virginia on April 12, 1960. The meeting had been called for the purpose of adopting a Constitution and By-Laws. Captain Duling, Chairman of that Committee, presented the Constitution and By-Laws. A unanimous vote was cast by those present adopting them as read.

A discussion as to the location of the next meeting was opened and a unanimous vote was cast for the meeting to be held in Northern Virginia.

President Marshall then told the group of activities of many chapters towards broadening the scope of the National Association. After some discussion Captain Bell made a motion, seconded by Captain Gilliam, that the Virginia Chapter accept the recommendations of the National Constitution and By-Laws Committee regarding broadening the scope of APCO. The motion was carried unanimously.

A motion was made and carried to the effect that present officers serve until the 1961 annual meeting.

Sergeant Columbus suggested that the next annual chapter meeting be held the latter part of June, 1961, the Northern Virginia group to arrange the place, time and date. The group voted to accept this suggestion.

A motion was made and carried that the Virginia Chapter act as the Frequency Coordinating Agency for the State of Virginia.

After lunch a very informative talk was presented by George Dewire of General Electric Company on "Miniaturization of Radio Equipment."

W. M. LEE, Sec'y-Treas.

(Continued)

PD, who are you?" (Make like you don't see his Conference badge.) After the man says, "I'm Jimmy George, and I'm a doorman at the hotel here" — you've got it made, the rest are easy to meet. Incidentally, I'm not rooming in the elevator penthouse this time — I specifically told them I wanted to be on a lower floor. Just follow the signs that say Air Raid Shelter.

— and a 30-em dash to you —
